June 2025

Bachelor of Arts

Major(s): **Gender Studies, Biology** (premed)

**GPA 3.5;** Dean's list (23'-24', 24'-25 academic years)

- Conducted extensive research on the formation of Queer-Theory from the perspective of philosophical movements by exploring essentialism, structuralism, and post-structuralism.
- Explored human reproduction with an emphasis on technological advances and their impact on the individual and society.
- Investigated the relationship between societal constructs of Gender and the description of the human reproductive systems in American and Polish high school textbooks for Senior Capstone.

## Study Abroad

August 2023 – November 2023

Atenas, Costa Rica

- Gained greater understanding of environmental, social, and economic hardships faced by Costa Ricans by nature of multiple cultural oriented courses and general exposure.
- Developed fluency in Spanish.
- Researched the carbon sequestration capacities of Costa Rica's most common trees and published research in an undergraduate journal.
- Adapted to foreign cultural and familial environment and fostered intercultural friendship.

## Experience

### Receptionist

June 2025 – Present

Harbor House Battered Women's Shelter, Appleton, WI

- Serve as a welcoming point of first contact for women seeking shelter at Harbor House by answering questions in both English and Spanish.
- Ensure the confidentiality of residents, going as far as to not acknowledge former or current residents when crossing paths by chance in public should they so wish.
- Go above and beyond expectations by working with Harbor House director to alter visual appearance and messaging of facilities as to reduce stigma around victims of physical abuse.

### President

September 2022 – June 2025

Lawrentians Inspiring Global Health Together (LIGHT), Appleton, WI

- Planned weekly meetings around a certain concept or element of global health for an average of 18 members.
- Organized well attended panel events in which global health experts presented their work to improve certain facets of global health.
- Oversaw the implementation of "Global Health Awareness Day" on campus, in which students were informed about the different areas of global health and manners in which one could contribute to the advancement of global health.
